

# WP eStore Variations UI Addon

---

The WP eStore Variations UI addon allows you to replace the standard "Variations" configuration section in the "Add/Edit" products page with a user-friendly configuration form.

Whereas previously you had to enter specially coded strings (eg, "Color|Green:2|Red:5|Black:7.50") to represent your variations, you can now use this addon to display a simple user-friendly form where you can enter the variation details.

## Usage Instructions

### Pre-requisites

In order for the eStore Variations UI addon to work you will need to have the WP eStore plugin installed and activated.

### Configuring Variations for a Product

After installing and activating the addon, you can configure the variations for any product by editing an existing product or adding a new product via the "Add/Edit Products" page.

In the Add/Edit Products page, go to the "Variations" section to configure the variation items for your products as shown in the figure below:

The original way you would configure the above variations in eStore is shown below:

**Variations (Click to Expand)**

Please make sure you have specified a base price for the product in the "Product Price" field above

Product Variation 1

Color[Green:2|Red:5|Black:7.50]

Useful if you want to use variation with your product eg. Small, Medium, Large. [Learn How To](#)

Product Variation 2

Size[Small|Medium|Large|XL]

Useful when adding additional variation with your product eg. Red, Green. [Learn How To](#)

Product Variation 3

Useful when adding additional variation with your product eg. Short, Full. [Learn How To](#)

The new way to configure the above variations using the Variations UI addon is shown below:

**Variations (Click to Expand)**

Please make sure you have specified a base price for the product in the "Product Price" field above

**Product Variation 1**

Variation Name: Color

|                        |      |  |            |
|------------------------|------|--|------------|
| Variation Value: Green | 2    | <input checked="" type="checkbox"/> Assign a Price |            |
| Variation Value: Red   | 5    | <input checked="" type="checkbox"/> Assign a Price | Remove Row |
| Variation Value: Black | 7.50 | <input checked="" type="checkbox"/> Assign a Price | Remove Row |

Add Another Variation Value

**Product Variation 2**

Variation Name: Size

|                         |   |            |
|-------------------------|---|------------|
| Variation Value: Small  | <input type="checkbox"/> Assign a Price |            |
| Variation Value: Medium | <input type="checkbox"/> Assign a Price | Remove Row |
| Variation Value: Large  | <input type="checkbox"/> Assign a Price | Remove Row |
| Variation Value: XL     | <input type="checkbox"/> Assign a Price | Remove Row |

Add Another Variation Value

**Product Variation 3**

Variation Name: eg: color, size etc

Variation Value: variation-value ☐ Assign a Price

The equivalent color variation shown using the variation UI addon

The equivalent size variation shown using the variation UI addon

## Example 2: Digital Variations

In this example, the user wants to specify variations for a digital product as follows:

**Name of the variation group:** License

**Variation Names:** Single, Business (\$10) and Professional (\$15)

**Downloadable Files:** downloads/single-license.zip (Single Option), downloads/business-license.zip (Business Option), downloads/pro-license.zip (Professional Option)

The original way you would configure the above variations in eStore is shown below:

Product Variation 3

Useful when adding additional variation with your product eg. Short Full [Learn How To](#)

Digital Product Variation

License(Single:http://yourdomain.com/downloads/somefile.zip|Business:http://yourdomain.com/downloads/somefile2.zip|Professional:http://yourdomain.com/downloads/somefile3.zip)

Can be used for original delivery of different files depending on the selection (eg. Personal use, Business use). Please note that you need to enter a value (any URL value will do) in the "Digital Product URL" field to trigger the digital variation. [Learn How To Use Digital Product Variation](#)

+ Shipping & Tax (Click to Expand)

The new way to configure the above variations using the Variations UI addon is shown below:

Variation Value Variation Value Assign a Price

Add Another Variation Value

Digital Product Variations

|                 |              |   |  |  |   |
|-----------------|--------------|---|--|--|---|
| Variation Name  | License      |   |  |  |   |
| Variation Value | Single       | <input type="checkbox"/> Assign a Price | http://yourdomain.com/download                     | <input checked="" type="checkbox"/> Specify download URL |   |
| Variation Value | Business     | 10                                      | <input checked="" type="checkbox"/> Assign a Price | http://yourdomain.com/download                           | <input checked="" type="checkbox"/> Specify download URL Remove Row |
| Variation Value | Professional | 15                                      | <input checked="" type="checkbox"/> Assign a Price | http://yourdomain.com/download                           | <input checked="" type="checkbox"/> Specify download URL Remove Row |

Add Another Variation Value

The above shows the new way of representing the digital variation which was shown in the previous example when using the variation UI addon

## Inventory Control for Variations

If you wish to manage inventory for your variants, utilize the "Inventory Configuration" section to specify stock levels for each variant combination. Refer to the screenshot below for illustration.

### Inventory Configuration

To use this section you will need to firstly configure some variation values in any or all of the "Product Variation" sections above.

|      |                                     |       |                                     |         |                                 |                 |                                 |   |
|------|-------------------------------------|-------|-------------------------------------|---------|---------------------------------|-----------------|---------------------------------|---|
| Size | <input type="text" value="Small"/>  | Color | <input type="text" value="Red"/>    | Country | <input type="text" value="US"/> | Items Available | <input type="text" value="10"/> |   |
| Size | <input type="text" value="Medium"/> | Color | <input type="text" value="Orange"/> | Country | <input type="text" value="US"/> | Items Available | <input type="text" value="20"/> | <input type="button" value="Remove Row"/> |
| Size | <input type="text" value="Small"/>  | Color | <input type="text" value="Blue"/>   | Country | <input type="text" value="US"/> | Items Available | <input type="text" value="50"/> | <input type="button" value="Remove Row"/> |
| Size | <input type="text" value="Medium"/> | Color | <input type="text" value="Red"/>    | Country | <input type="text" value="US"/> | Items Available | <input type="text" value="10"/> | <input type="button" value="Remove Row"/> |
| Size | <input type="text" value="Large"/>  | Color | <input type="text" value="Red"/>    | Country | <input type="text" value="US"/> | Items Available | <input type="text" value="10"/> | <input type="button" value="Remove Row"/> |
