

## Using the eStore Bulk Item Purchase AddOn

The bulk item purchase feature shows the products like the following screenshot. Your users will be able to specify the quantity value for each product they wish to purchase and then hit the "Add to Cart" button to add all the items with a quantity value to the shopping cart then complete the checkout.

	<p><b><u>The Writing Life A Writer's Journal</u></b></p> <p>Adding some more description. This is a test description. some really long description of this product. Hope you like it because it is going to test everything so good.</p>	<p><del>Price: \$15.00</del> <input type="text" value="2"/> X \$10.00 <b>Only \$10.00</b> <b>44 left!</b></p>
	<p><b>Awesome Product</b></p> <p>You need to have the Audio Player Plugin installed to use this shortcode</p>	<p><del>Price: \$70.00</del> <input type="text" value="1"/> X \$50.00 <b>Only \$50.00</b> <b>15 left!</b></p>
	<p><b>Another Greate Product</b></p> <p>This is a test description. This product is terrific so please buy it now.</p>	<p><b>Only \$600.00</b> <input type="text" value="1"/> X \$600.00 <b>36 left!</b></p>
	<p><b>Strategy Guide</b></p> <p>Test description for this product</p>	<p><b>SOLD OUT</b></p>

## How to Create a Bulk Item Purchase Display

**Step 1.** Create a new category in WP eStore plugin.

**Step 2.** Then add products that you want to list under your bulk item purchase page to the category you created in step 1.

**Step 3.** Use the following shortcode in the page where you want to display your bulk purchase items:

```
[wp_eStore_bulk_item_purchase cat_id=1]
```

1 is the category ID of the category your created in step 1. Replace with the actual category ID of your installation.

**Step 4.** Add a shopping cart shortcode below the bulk item purchase shortcode so the customers can view the items they add to the cart and complete the checkout.

```
[wp_eStore_cart]
```
